Dear Neighbor:

I am writing to update you about Stanton’s financial and public safety needs.

Due to Sacramento takeaways, Stanton has lost almost $18 million in local tax dollars. The City is facing a $1.8 million structural budget deficit and has been forced to cut local services, including public safety.

Public safety is our top priority. Our community has a history of gang problems, and public safety represents over 70% of the City’s budget. Without a local funding source, the City will be forced to significantly cut public safety; reduce gang and drug prevention, police officers at local schools, and neighborhood police patrols; and consider reducing firefighter staffing levels.

We are working to develop a fiscally-responsible plan to address these and other local services needs and need your input! Please let us know YOUR priorities for Stanton by returning the attached card today.

Stanton City Manager

Protecting Local Services

Additional funds could help maintain essential services, including:

➤ Attracting businesses and creating jobs
➤ Maintaining 9-1-1 emergency response times
➤ Maintaining neighborhood police patrols
➤ Maintaining current levels of fire protection services and firefighters
➤ Preventing cuts to gang and youth violence prevention programs
➤ Balancing Stanton’s City budget without additional cuts to public safety services
➤ Protecting the City’s senior programs and nutrition center
