	R16 - In California, many private and charter schools have been teaching students all day, in-person, since the fall. Most traditional public schools allowed students to return a few hours a week beginning last month. In your own words, please tell me why this is the right approach or the wrong approach for public schools.

	Q17 - A possible statewide initiative would use revenues currently dedicated to fund public education to establish Education Savings Accounts for every kindergarten through twelfth grade student that would allow parents to use those funds to enroll their student in a public, private, charter or religious school, pay for tutoring and books, and to use any savings left after the student graduates from high school to pay for college. If an election was held today, would you vote yes, in favor or no, against the initiative establishing Education Savings Accounts in California?

	Q17 - A possible statewide initiative would use revenues currently dedicated to fund public education to establish Education Savings Accounts for every kindergarten through twelfth grade student that would allow parents to use those funds to enroll their student in a public, private, charter or religious school, pay for tutoring and books, and to use any savings left after the student graduates from high school to pay for college. If an election was held today, would you vote yes, in favor or no, against the initiative establishing Education Savings Accounts in California?
